The Board of Directors National Marine Dredging Company (Public Shareholding Company) Abu Dhabi

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of National Marine Dredging Company (Public Shareholding Company) ("the Company") and its subsidiaries (collectively referred to as "the Group") as at 30 June 2012 and the related condensed consolidated interim statements of comprehensive income, changes equity and cash flows for the six-month period then ("condensed consolidated interim financial information"). Management is responsible for the preparation and presentation of the condensed consolidated interim financial information in accordance with International Accounting Standard IAS - 34 Interim Financial Reporting. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information as at 30 June 2012 is not prepared, in all material respects, in accordance with IAS - 34 *Interim Financial Reporting*.

(Public Shareholding Company)

Notes to the condensed consolidated interim financial information

3 Significant accounting policies (continued)

(a) Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Adjustments are made to the figures reported by subsidiaries, when necessary, to align them with the policies adopted by the Group.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

(b) Goodwill

Goodwill, arising on acquisition, represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities acquired as at the date of the exchange transaction. Goodwill is stated at cost less any accumulated impairment losses.

(c) Contractual rights

Contractual rights represent that portion of the costs of acquisition that management attributes to the net present value of the expected future cash flows arising from contracts acquired as a part of business combinations. These rights are amortised and charged to the consolidated statement of comprehensive income over the period management expects to derive benefits from these future contractual cash flows.

4 Estimates

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing the condensed consolidated interim financial information, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same, as those that applied to the financial statements as at and for the year ended 31 December 2011.

5 Financial risk management

The Company's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended 31 December 2011.
